Massage Therapy

Your Wellness Strategy

Nora Brunner

For many people, massage and bodywork are a critical part of their health and wellness strategy--an idea medical professionals are increasingly embracing. In a recent online survey, massage devotees talked about their commitment to regular massage therapy. These folks find a way to afford it, regardless of other demands on their resources.

Best Life

"Getting massage has been part of my life since I was in my 20s--I'm now in my 50s," says Los Angeles chef Gisele Perez. Once a modern dancer and now proprietor of a boutique catering company, she considers massage spiritual guru calls "efforting," it's nice to know that letting go of it all can be just as productive, perhaps even more so.

Some have come to massage because of injuries and found unexpected blessings in their situations. While many first-time massage clients have become acquainted with massage because of referrals from health professionals, there's no need to wait for an injury to prompt you into forming the massage habit.

"I consider professional massage therapy an essential part of my best-life design," says author and psychologist Mollie Marti, who suffered a whiplash injury

Massage is an important part of a wellness strategy.

necessary to the career she loves. She finds massage helps resolve problems she's grappling with and that solutions arise spontaneously in her thoughts while she's on the table. "I think it maintains my emotional balance," she says. Many massage clients report cathartic experiences when they finally allow themselves to fully relax. With so much of our lives devoted to what one several years ago in a car accident. "It's been worth every penny," she says of the work that has improved her range of motion and relieved muscle soreness, as well as offered deep relaxation, greater alertness and clarity, and a heightened sense of well-being. "I feel better and am happier and more at peace."

Massage Therapy Lavender Flax Facts

Continued from page 1

Professional athletes also use massage strategically before events to help them achieve their best. Research also shows muscles recover more quickly after a workout. For weekend warriors, a massage can help recovery, or also serve as a reward for sticking with an exercise program. That's doubling the return on your investment.

Research shows the cost of a massage has remained fairly steady in recent years, even as other popular pastimes have become more expensive. "Affording it" is a matter of priorities, or at least that's the way 22-year-old Elizabeth Sosa Bailey sees it. She calls her modest Houston public radio station salary "practically a sneeze," yet she manages to get a monthly massage. "My first massage was only 30 minutes, but I fell in love," she says. "It's worth it because it makes me happy."

Being happy is only part of it, since studies show an ever-increasing number of health benefits massage affords. This is an instance where the pillars of intelligently managing your health--prevention and early intervention--come into focus.

Medical Odyssey

Attorney J. Kim Wright of Taos, New Mexico, stressed out over the constant demands on her time after founding a law practice 15 years ago. Those pressures, combined with having a large family at home, soon led to margaritas at a local watering hole with her staff every Friday after work. When coworkers started discussing an additional drinking night on Wednesdays, she got worried about the path she was on. A colleague recommended massage. She scheduled weekly massage appointments, a resource that also helped her cope with a divorce when her life changed direction. The sessions stretched her budget, but became her lifeline, she reports, adding that she often broke into tears the minute she walked through the door for her massage session. "It was the outlet I needed," Wright says.

Christine Stump used to work as a full-time paramedic and continues in a part-time capacity after adding yoga teacher to her career. Massage is how she maintains her emotional balance and avoids injuries that have disabled her coworkers in the "adrenaline-soaked world of emergency services," she says. "I process my experiences with greater ease," Stump says. "My monthly massage is a tremendous reset button."

A Self-Care Experience

Author and teacher Charlie Adler of Washington, D.C., has been getting regular massage for IO years, admitting that perhaps he enjoys his job a little too much. Adler is a full-time instructor in wine and cooking and can't help but enjoy the fruits of his--and his students'--labor. Committed to holistic medicine, he says: "Massage is disease prevention for me. It seems wrong to me to wait until you get sick to go to a doctor." The 47-year-old reports he often falls asleep in the middle of his session.

"As a ranked expenditure, massage is up very high," he says. "It has a higher importance than going out to eat and cable TV ... I rank massage equivalent with faith or religion, or maybe as one component of my belief system. I have missed massage for as long as three weeks just once in IO years," he says.

Former ballet dancer Luis Perez of Miami, Florida, has been getting massage twice that long. With 20 years of twice-weekly massage, he works in health and fitness, putting his money where his mouth is. "I have given myself permission to make myself a priority," Perez says.

Many people make massage a priority, and you may well be one of them. Know that you have chosen something with real value that benefits your health--both in body and mind.

Incorporate massage into your wellness strategy for best results.

Lavender An Essential Oil for Fundamental Health

Laurie Chance Smith

Lavender essential oil is a one-stop medicine chest, helping to reduce anxiety, fatigue, and stress and balance hormones, increase the immune response, lower blood pressure, and relieve pain. To utilize lavender's healing benefits at home, mix five to IO drops of lavender essential oil in one ounce of jojoba oil or unscented lotion. (Essential oils shouldn't be applied directly to the skin; it's best to partner them with a carrier oil, liquid, or lotion.)

Earaches

For earaches, dab one drop of lavender massage oil behind the ear and rub gently. Alternatively, place one drop of lavender oil on a cotton ball and carefully place inside the outer ear.

Headaches

Inhaling lavender is also effective for headache relief. Add a few drops to a bowl of warm water and breathe. Gently rub lavender massage lotion on the temples, forehead, and base of the neck.

Colds

Lavender oil can also help break up coughs and clear sinuses. Colorado-based holistic aromatherapist Nicola McGill suggests the regular home-use of antiseptic essential oils such as lavender to help avoid colds and other infectious diseases. Add a few drops to a vaporizer to help clear colds and infuse the home with lavender's scent.

Stress

At night, six to eight drops of lavender added to a warm bath helps melt away stress and relieve fatigue. Blend a footbath by adding three drops of lavender to a bowl of warm water, sink your feet in, and relax. For help inducing sleep, add two or three drops of lavender essential oil to the underside corner of your pillow.

Tranquil Aroma

A human takes 23,040 breaths a day, and each inhale floods the system with scent. Rely on lavender's tranquil aroma to clear the way toward peaceful days.

Lavender is loaded with wellness properties.

Flax Facts Reap the Health Benefits of This Little Seed

Flaxseed, the humble little brown seed with a nutty flavor, is a powerhouse in the nutrition world. It's able to reduce blood pressure, decrease risk of heart attacks and stroke, improve skin quality, help control blood sugar levels, reduce cholesterol, and even prevent breast and colon cancer--all in a single seed!

But what makes flax so powerful? Flaxseed contains high concentrations of alpha linoleic acid, a form of omega-3 fatty acids, which serve as the basic building of cell blocks walls. Additionally, flax is high in lignans, powerful antioxidants known for alleviating menopausal symptoms and fighting breast cancer. There are three forms of flaxseed, making it easy to incorporate into your diet.

While available in capsule form to be taken as a supplement, flax oil is best consumed as a food to get the most benefits from it. Many nutritionists often recommend purchasing the oil in small quantities, storing it in the refrigerator, and consuming a daily intake of two tablespoons. You can add a tablespoon to your morning smoothie or substitute flax oil in the vinaigrette dressing for your salad.

Flax oil breaks down to trans fats when heated, so it should never be used in cooking. While lower in lignans than other forms of flax, the oil is sometimes processed to preserve the lignans. Check the label for details.

FLAXSEEDS

Whole seeds are sure to have all the nutritional benefits of flax. Simply add

these to your granola or salads for a nutty flavor. If a little tough on the teeth, grind them in a coffee grinder and sprinkle on foods. One note: raw, whole flaxseeds contain chemicals that can affect thyroid function. To get around this, simply toast the seeds in the oven for twenty minutes at 250 degrees, or limit your consumption of raw seeds to three to four tablespoons a day.

Flax Meal

Ground flax meal is another option to get the powerful nutritional value of flax. Add a tablespoon of it to your smoothies for extra fiber, or stir it into your oatmeal in the morning.

MUSIC & MASSAGE "PAUSE AND REFRESH"

Treat yourself or someone you care about with the gift of massage. Gift certificates are a great way to give the gift of health. Call today to order! 919-805-0583
